VALUE SIF SICAV - Strategic Global Opportunities, a sub-fund of VALUE SIF SICAV LU1653222312

This Fund is managed by Ersel Gestion Internationale S.A.

Objectives and investment policy

This Fund is actively managed and aims to make capital gains. The Fund has no reference Benchmark.

The Fund mainly invest in different classes of international transferable securities, including but not limited to equities and bonds, and in money market instruments with duration of less than twelve months, mainly through Undertakings for Collective Investments in Transferable Securities (UCITS) and/or other Alternative Investment Funds (AIFs).

It is expected, that the Fund will have a relevant exposure to equities, and that in normal market conditions more than 20% of the net assets of the Company will be exposed to equities. The Company may make all of its equity or its bonds investments via UCITS and/or AIFs.

The Fund may also invest in AIFs and, generally speaking, in assets with valuation timing longer than weekly, up to 30% of its Net Asset Value in order to capture any potential market opportunity that will arise.

However, the Fund may invest directly in funds, shares, bonds, money market instruments and derivatives of any kind and nature to complete its portfolio by adapting to the situations on the market.

The Fund may also use a leverage effect. The maximum expected level of leverage is 200% of the net assets according to the commitment methodology.

Any income received by the Fund is reinvested.

The Fund's value is calculated and expressed in Euro.

Investors can buy or sell shares of the Fund on a weekly basis (each Friday).

This indicator represents the annual historical volatility of the Fund over a 5-year period.

Risk Category 4 reflects average/moderate potential gains and/or losses for the portfolio. This is due to investments in diversified portfolio of bonds and mutual funds that invest in bonds, equities and money market securities on the international market.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile.

The risk category associated with the Fund is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

Credit risk: The Fund invests in bonds, cash or other money market instruments. There is a risk that the issuer may default. The likelihood of this happening will depend on the credit-worthiness of the issuer. The risk of default is usually greatest with bonds that are rated as sub-investment grade.

Currency risk: The Fund invests in overseas markets. It can be affected by changes in exchange rates which may cause the value of your investment to decrease or increase.

Counterparty risk: The counterparty risk may occur due to the fact that the Fund might have exposure through over-the-counter contracts with third parties.
