GLOBERSEL - ANAVON ABSOLUTE ALPHA, a sub-fund of GLOBERSEL

Class D (Accumulation) LU2018616594

This Fund is managed by Ersel Gestion Internationale S.A.

Objectives and investment policy

This Fund is actively managed and its investment objective is to achieve maximum capital appreciation commensurate with reasonable risk. In pursuing this objective, the Fund's Manager uses fundamental analysis to select long and short investments mainly in equity exposure; both equity securities and OTC derivatives (equity swap). The Fund has no reference Benchmark.

In order to realize its investment strategy, the Fund will invest mainly in different classes of international transferable securities, particularly equities, bonds, money market instruments and derivatives. In particular, the Fund will use listed derivatives (such as, for example, futures and options) and OTC derivatives (such as, for example, Contracts for Difference or Equity Swap) in order to create long and short exposure.

In terms of geographical exposure, the Fund will invest mainly in developed markets (such as markets in countries belonging to the EU and the OECD).

The Fund may invest, on a residual basis, in money market instruments with duration of less than twelve (12) months.

The Fund may hold cash, on a residual basis.

The Fund may invest up to 10% of its net assets in units of other UCITS or other UCIs as referred to in art. 41, section 1, of the Law of 2010.

The Fund may use financial techniques and instruments in order to promote an efficient portfolio management, in accordance with the restrictions set forth in the "Financial techniques and instruments" chapter of the prospectus.

Any income received by the Fund is reinvested.

The reference currency of the Fund is the Euro. The Class D is quoted in Euro.

Investors can buy or sell shares of the Fund on a daily basis (full bank business day).

This indicator represents the annual historical volatility of the Fund over a 5-year period.

Risk Category 4 reflects average/moderate potential gains and/or losses for the Fund.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile.

The risk category associated with the Fund is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

Counterparty risk: The counterparty risk may occur due to the fact that the Fund might have exposure through over-the-counter contracts with third parties.

Liquidity risk: Liquidity risk exists when particular investments are difficult to purchase or sell. This can reduce the Fund's returns because the Fund may be unable to transact at advantageous times or prices.

Derivative risk: The use of derivatives may be for both hedging purposes or to create long and short exposure. A limited fluctuation in the value of the underlying asset may cause a greater fluctuation in the value of the derivative.

Currency risk: The Fund invests in overseas markets. It can be affected by changes in exchange rates which may cause the value of your investment to decrease or increase.
