### LEADERSEL - EVENT DRIVEN, a sub-fund of LEADERSEL

**Class B (Accumulation) LU1323913191**

This Fund is managed by Ersel Gestion Internationale S.A.

### Objectives and investment policy

The Fund aims to maximize capital with focus on companies subject to extraordinary/special situations such as mergers, acquisitions and restructuring with the aim to take advantage of such events. This objective will be reached by investing mainly in transferable securities, particularly equities and bonds, money market instruments and derivatives (such as futures and options, Contracts for Difference or Equity Swaps), in order to create long and short exposure with the aim of exploiting potential opportunities.

If the Fund invests in Swaps on Indexes, the index composition will be public and disciplined by appropriate Index Rules publicly available and in accordance with the provisions of the Law. The Fund will not invest in derivatives where the counterparties have any discretion on the composition or management of the Fund's investment portfolio or on the underlying of the financial derivative instruments.

The Fund may hold liquid assets, including cash, bank deposits, money market instruments or units of Undertakings for Collective Investments in Transferable Securities (UCITS) and/or other Undertakings for Collective Investments (UCIs) that have a policy of investing mainly in liquidity strategies on a residual basis (less than 50% of its net assets).

The Fund may invest up to 100% of its net assets in various issues (minimum 6) of securities and money market financial instruments, issued or guaranteed by a Member State of the European Union, by its public territorial authorities, by a Member state of the OECD, by international public institutions to which one or more EU Member States belong. The Fund will invest mainly in developed markets.

The Fund may invest up to 10% of its net assets in units of other UCITS or other UCIs.

The Fund may use financial techniques and instruments in order to promote efficient portfolio management.

Any income received by the Fund is reinvested.

The Fund's value is calculated and expressed in Euros.

Investors can buy or sell shares of the Fund on a daily basis (full bank business day).

### Risk and reward profile

With lower risk, With higher risk,  
  
 potentially lower rewards potentially higher rewards

This indicator represents the annual historical volatility of the Fund over a 5-year period.

Risk Category 3 reflects limited potential gains and/or losses for the portfolio. This is due to investments in a diversified portfolio of transferable securities and derivatives with the objective to pursue a strategy with a minor correlation with the major financial markets and a focus on companies subject to extraordinary/special situations.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile.

The risk category associated with the Fund is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

**Credit risk:** The Fund invests in bonds, cash or other money market instruments. There is a risk that the issuer may default. The likelihood of this happening will depend on the credit-worthiness of the issuer. The risk of default is usually greatest with bonds that are rated as sub-investment grade.

**Counterparty risk:** The counterparty risk may occur due to the fact that the Fund might have exposure through over-the-counter contracts with third parties.
